

Rennes Airport

General Conditions of Sale and Use of the J-30 Parking e-Tariff Service

These general conditions of sale set out the terms and conditions relating to the J-30 parking e-tariff service (hereinafter: “e-tariff”) at the car parks of Rennes Airport.

Using the tariff implies acceptance of these General Conditions of Sale. These provisions take precedence over any other document.

ARTICLE 1 - Description of the service

The “e-tariff” is a preferential parking tariff that is available only online at the airport’s website: www.rennes.aeroport.fr. It applies to a specific person, date, and duration. The offer is subject to reservation being made **at least 30 days before the departure date of the journey**, and for a minimum parking period of 3 days according to availability on the car parks the day of the departure. It is not a reservation of parking space.

ARTICLE 2 - Conditions for making an e-tariff reservation

The “e-tariff” service is available only on the airport’s website: “rennes.aeroport.fr”. It requires a form to be filled in online. Once that form has been completed, the user receives an acknowledgement of receipt that must be retained and printed.

Any physical and / or legal person who has the legal capacity to enter into a contract is entitled to use the “e-tariff”.

The service user must complete the required fields of the reservation form that is available on the airport’s website. Rennes Airport reserves the right to refuse the benefit of the “e-tariff” if the form is filled in using wrong or incomplete information.

All requests shall be approved, subject to:

- the information requested by Rennes Airport on its website being accepted and correct
- the service user indicating prior acceptance of these General Conditions of Sale.

The “e-tariff” must be applied for at least 30 days before the date on which the vehicle is expected to arrive at one of the car parks at Rennes Airport (J-30).

The service entitles the user to a car park space at a preferential tariff for a specific period, subject to availability on the day of departure, **subject to a minimum parking period of 3 days from the time at which the vehicle enters the car park.**

ARTICLE 3 – How to obtain an e-tariff ticket

To benefit from the J-30 e-tariff, **after arriving aboard your flight**, please go to Rennes Airport Reception Desk.

When you present the acknowledgement of receipt relating to your online form, together with your car park entry ticket, your outbound and return flight tickets, and proof of identity, you will receive a ticket that applies the J-30 tariff. Reception Desk staff will inform you of how to make payment.

The date of arrival at the car park must be the same as the date given when you made your reservation using the on-line form. If that is not the case, you will not be able to benefit from the “e-tariff”.

The online form acknowledgement of receipt cannot be exchanged. It is only valid for the “e-tariff” service. The acknowledgement of receipt applies to a specific individual, and it cannot be transferred. You must hold an official proof of identity in order to receive the “e-tariff” ticket.

Reproduction, duplication, or counterfeiting your online acknowledgement of receipt by any means whatsoever is strictly prohibited. Reproduction is prohibited, and shall not give any advantage. The person reproducing the acknowledgement of receipt and the person using that copy of the acknowledgement are liable to criminal prosecution.

ARTICLE 4 – Liability and Insurance

Car park users are required to comply with the Rennes Airport car parks Rules of Procedure, as well as with the Highway Code. In accordance with article L.121-20-3 of the French Consumer Code, Rennes Airport declines all liability in the event of non-performance or wrongful performance of the service that can be attributed to the user or to a third party unconnected with the service, or in case of *force majeure*.

ARTICLE 5 – Tariff applied

The tariff owed shall be calculated using the actual times of car park entry and exit. Under no circumstances shall that tariff be calculated on the basis of information given online; that information is for the purposes of declaration only.

ARTICLE 6 – Data Protection

In accordance with the provisions of French Law No. 78-17 of 06/01/1978 on Data Protection, as amended, all persons whose details appear in the computer file held by Rennes Airport are entitled to access and to rectify all information concerning them.

ARTICLE 7 – Complaints and Disputes

Any request for further information and any disputes must be sent to the following address:

Aéroport de Rennes, Service Clients, BP 29155, 35091 Rennes CEDEX 9, France
